

# DESIGN FREEDOM. DEFINED BY Eagle

WINDOWS DOORS  
an Andersen Company

When it comes to design freedom, nobody makes it easier than Eagle.

## DESIGN MATTERS

Eagle believes your inspiration and vision should guide your design without limits, because good design matters. To architects, to builders, to homeowners, in every detail, inspired design distinguishes the ordinary from the extraordinary.

## FREEDOM DELIVERED

Being extraordinary means designing your windows, not just around them. Your inspiration comes to life through our made-to-order approach. You get the freedom you desire without settling for the colors, sizes and options that are "close enough."

## UNLIMITED COMBINATIONS

Each Eagle® window and door is made-to-order to your exact design specifications. Countless geometric shapes in virtually any structural sound size and combination can transform your inspiration into reality. The Eagle team is dedicated to producing premium, made-to-order windows and doors with architectural distinction and lasting beauty.

## UNLIMITED EXTERIORS

Color enhances your design, and we believe it shouldn't have to cost more. Start with one of our 50 Eagle Complimentary Colors™, a carefully selected modern palette available at no additional cost. Our extensive color offering far exceeds anything in the industry today. Add to that our complimentary 2-, 3- and 4-tone exteriors, and Eagle sets your windows and doors apart from the rest.

If your inspiration comes from an autumn leaf, a river-washed stone, a glass of fine wine, or even a classic corvette, Eagle will bring it to life with our custom color capabilities. And for a look of distinction, we offer seven spectacular anodized finishes that truly shine.

## UNLIMITED VIEWS

Whether your design demands performance, clarity or architectural detail, Eagle has the glass and divided light solutions to make your views spectacular. For performance needs in a variety of environments, Eagle offers a multitude of glass options, including High-Performance™ Low-E4® glass and our exclusive HarborMaster® systems for severe weather conditions.

And for visual impact, made-to-order decorative glass and divided lights give you infinite possibilities, so your design will be as original as your inspiration.

## UNLIMITED INTERIORS

Natural wood adds character to your design. Eagle wood selections allow you to choose from pine or fir at no additional charge. For infinite possibilities, we offer seven additional distinctive wood varieties and will source virtually any other wood species your design demands.

All of our wood selections can be finished to perfection in one of eight interior stains, two basecoat colors or clear polyurethane. And with our stain-matching capabilities, you can trust us to customize a finish to meet your design needs.
